6:39 PM Meeting started

1. [7:18 PM]

May I ask another question if ok please, how much difference is there in the subjects content around the s3 curriculum choices than the s1 2. In context our pupil has mentioned possibly discounting a certain subject based on what they have done in class in to date but I wondered if the content of the s3 course is different how will the pupil come to know this. Thank you

[7:19 PM] Malcolm MacIntyre

The content is a progression from S1/2 if that's the question? It's not repetition.
